MISSION

Partnering with others to develop sustainable resources for organizations that foster independence, primarily for those who are blind.

INVOLVE

At TGFF, we involve ourselves in the grant making process, including a close partnership with our grantees.

INVEST

At TGFF, we invest in the future with our time and resources to achieve sustainable solutions.

INSPIRE

At TGFF, we are inspired by who we help and what they accomplish. We tell stories to inspire others.

INNOVATE

At TGFF, we look for innovative solutions that can be modeled or shared.

Congratulations to all who have invested time to make TGFF's Vision their Vision. It was a great 25th year. I don't know of any private foundations who have involved their families more completely, or for this length of time, in pursuit of their Donor's Intent.

None of this success would have been possible without Joanie and Suzi accepting Dad's challenge to make it happen. Of course, it still wouldn't have happened without the rest of you following their lead either. A huge THANK YOU to Joanie and Suzi for all their support of Dad's Dream and me. As we celebrate their "emeritus status" going forward, thanks to them for remaining on as Senior Members of the Board.

Recognition for Exemplary Service: Emeritus Board Members

I am proud to have been involved with TGFF since it's inception in 1991 and now as a Founding Member Emeritus. I look forward to the next generations taking more steps to ensure that TGFF will continue to make the world a brighter place for those less fortunate, particularly those with impaired vision.

Joanie Gibney Whittaker

In this new position as Founding Member Emeritus, I feel grateful and privileged to be able to continue to contribute, along side each of you, to the mission and successes of TGFF, which brings hope and fosters independence to countless others.

SUSTAINABLE SOLUTIONS FOR INDEPENDENCE

TGFF Vision Statement

Accomplishment will prove to be a journey, not a destination. -Dwight D. Eisenhower

As a family, The Gibney Family Foundation works together in accomplishing their journey to achieve sustainable solutions for independence. It is exciting to report that our family continues to make a difference in carrying this foundation forward to new heights. In our 26th year of excelling at our mission, we are grateful to the organizations we have partnered with for sharing their knowledge, lessons learned, success and efforts for the benefit of their clients. This helps TGFF better understand the needs, and to partner for solutions.

Today, our family continues to embrace a narrow focus to preserve at least 51% of TGFF grant disbursement to benefit of those who are blind and visually impaired. Being engaged in this cause enables us to promote new accessible technologies, eliminate gaps of services, and help individuals live independently. TGFF also works daily to keep apprised of areas of need in the organizations we serve and to improve our internal process. A memorable journey wouldn't be memorable without a lot of effort. This effort has brought us where we are today.

"I see the family uniting with a common goal, despite being geographically dispersed, to enable others who have life-altering challenges to more fully live up to their potential. Success stories from these efforts will inspire and encourage further family commitment."

-Al Gibney, Founder

"Embrace the concept of a narrowly-focused mission as an opportunity to encourage a geographically-scattered family to maximize successes as we work together toward a common goal. These unified efforts and resulting successes will allow passion to grow. The narrow focus will also honor the dedicated and inspirational efforts of the Donor's mother and aunt who spent many hours enabling blind children to read through their efforts to translate children's books into Braille."
