“The Gibney Family Foundation is that of a simple organization of family members who can jointly do more for each other and for others than any of us can do alone; to give us as a family some simple focus shared by all so that when we are together we can enjoy the satisfaction of creating something for the benefit of others who we know have been less fortunate in life than we.” ~Al Gibney

CEO Message

2018 was a momentous year for the Foundation as we transitioned into third generation leadership for TGFF. For me personally, I have come to realize that sometimes your life's work chooses you, instead of the other way around. This past year I've had the personal goal to embrace my decision to lead the Foundation. Working with you as my family has been an incredible honor. The future of the Foundation is possible because of you - our TGFF Family. As we work, connect, and serve together we contribute to Al Gibney's vision of doing more together than any one of us could do alone. I am excited about TGFF's future. I am proud of what TGFF stands for and who we are together. ~Tracy Wasden, CEO

"Embrace the concept of a narrowly focused mission as an opportunity to encourage a geographically scattered family to maximize successes as we work together toward a common goal. These unified efforts and resulting successes will allow passion to grow. The narrow focus will also honor the dedicated and inspirational efforts of the Donor's mother and aunt who spent many hours enabling blind children to read through their efforts to translate children's books into Braille." -Donor's Intent
